CLEAN WIDTH

2, 3, 4, 5
meters

TRAVEL RATE

35 fpm

PRODUCTION RATE

14,160-
33,600 ft²/h

- Self-contained, self-climbing
- Patented raindrop nozzles create droplets of deionized water, reducing drifting and only applying water on the surface being cleaned
- Domestic labor savings - can do months worth of work in a day
- Safe - operated from the top of the building to eliminate over the edge work
- Effective - cleans entire building, including window frames, providing extended life of structure
- Centrifugal brush removes soil to remain cleanliness

- Travels with ease vertically up and down on a guide water while its unique "Sky Thruster" provides even pressure against the building, maintaining consistent cleaning
- Constructed of powder-coated steel tubing with welded joints. Sealed bearings and enclosed fan motors reduce maintenance costs and increase overall savings
- The HighRise is portable and can be transported from building to buildign with just a standard trailer.
